

# What A Feeling

Son Mieux

What a feeling when I leave my mind  
My head and heart, and I'm open wide  
I'll be leaving in the cold, cold night  
My fever's up and it's burning all night long

And on and on and on, I can't go on

Through the ceiling, I can touch the sky  
Paint these stars on a cloudy night  
I've been reaching, I've been reaching  
Don't you pull me down now I'm this far

Darling I don't know if I'm alright  
Or just a painted smile  
All I know is how hard I try  
To believe it  
To be it

What a feeling  
It goes on and on  
What a feeling  
When I can't go on  
What a feeling  
Darling I know  
You won't let go  
What a feeling

I've been broken, I'm all over town  
I should get some sleep but I can't slow down  
You were woken by a silent sound  
By a whispered scream I'd spoken

Darling I don't know if you're alright  
Or just a painted smile  
All I know is how hard you try  
To believe it  
To be it

What a feeling  
It goes on and on  
What a feeling  
When I can't go on  
What a feeling  
Darling I know  
You won't let go  
What a feeling

When nothing arrives, the pages are white  
When all that I knew seems out of sight  
On the edge of the curb, the end of the night  
I'm counting the thoughts leaving my mind

I've got nothing to hide, no one to fight  
I've hollowed my head emptied my eyes  
And all that I need, is here by my side  
You know that's just fine by me

What a feeling

It goes on and on  
What a feeling  
When I can't go on  
What a feeling  
Darling I know  
You won't let go  
What a feeling
