

## Float Away

Son Volt

Early in the morning in a little Texas town  
Everybody's already grooving  
Coming from miles around  
Oh well, they're walking through the woods before the sun come  
up  
Drinking their coffee from their favorite cup  
Everybody's stoned  
And Lone Star beer is flowing

Pretty soon  
Pretty soon we'll all float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away

Come on everybody  
Take this trip with me  
Ain't no drug experience  
Ain't no LSD  
It's just locked-in Texas music  
Best stuff in the land  
Oh, makes you feel just like you feel  
When an Austin mama takes you down

Pretty soon  
Pretty soon we'll all float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away

Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away  
Float away, float away
