

Flow

Son Volt

Wasted air, breathe so low
Same old politics of show
Just don't find it the same as I leave it
Still in the flow
Still in the flow and I'm low to the ground
Just wanna bring it about
Already seen from the inside out
Varied change, in the words of the weatherman
Still in the flow
Still in the flow and I'm low to the ground
All control is out, spinning
A new beginning, tracking and finding
Look what we have
Talks resumed, strike avoided
Political mood winding down
Hearts and minefields and three's a charm
Still in the flow
Still in the flow and I'm low to the ground
Still in the flow and I'm low to the ground
