

Huggin' Thin Air

Son Volt

She's the kind of girl to make your heart beat
So good that you never let her down
She's up and gone in a flash in the morning
And I wake up just huggin' thin air

Huggin' thin air, wishing you were here
Huggin' thin air, full of deep despair
I used to run from commitment, now I don't even dare
And I wake up just huggin' thin air

I met her at a bar outside Austin
As the leaves turned backflips on the farm
What's bad is she's so good and it's so ghostly
And I wake up just huggin' thin air

Huggin' thin air, wishing you were here
Huggin' thin air, full of deep despair
I used to run from commitment, now I don't even dare
And I wake up just huggin' thin air
And I wake up just huggin' thin air
