

## Mystifies Me

Son Volt

Stay awhile and work it out of me  
We got time and we can cast it true  
Just give me a sign, I'll take your word  
I'll learn anything you want me to

That is all I'm looking to you for  
All I'm asking that you simply do  
Take it leave it, make things matter  
Lettin' all my breath away

Take it all apart and put it back  
I am always left here looking at you

You look so fine true  
You look so fine true  
I would not lie to you

Let me see you, let me know your dreams  
Won't you please give out a sign  
Things you say make me look through you  
No one mystifies me like you do

This is why I always look at you  
And I hold you to it every day

You look so fine true  
No one mystifies me like you do  
You look so fine true  
No one mystifies me like you do
