Promise the World

Son Volt

Don't get down when the cavalry doesn't arrive
It's only in Hollywood they didn't get it right
We'll be damaged, there will be hell to pay
Light after darkness, that is the way

The air is colder, closer to the ground
Find your footing, leave your doubts
We'll be damaged, there will be hell to pay
Light after darkness, that is the way

Promise the world to each other today
In the end it matters, it's worth the fight
We'll be damaged, there will be hell to pay
Light after darkness, that is the way

We all move mountains that stand in the way
Just part of being here, making things right
We'll be damaged, there will be hell to pay
Light after darkness, that is the way
