

Static

Son Volt

I hear buzzin'
And there's no room to fly
Smoke and trouble
'Neath the streetlit sky

We all go down
Before we're ready
I feel like my time...
My time ain't long

Static on the TV
And the radio
Or is my mind
Turned upside down?

We all go down
Before we're ready
I feel like my time...
My time ain't long

Gold as the tongue
That tells my heart
"Lay love and stand
"For what's right"

We all go down
Before we're ready
I feel like my time...
My time ain't long
