

## Underground Dream

Son Volt

Had a thought that consumer goods were bad  
Like a rat can never beat the wheel  
There is a wiretap stealing a nightmare  
Shadows laughing and making deals  
Let your hair hang down for this moment  
Heavy trial but we'll make it disappear

They can't take away  
This underground dream

Guns or education  
The answer's larger than the Hollywood sign  
Bigger souls can see the writing  
On the burning wall of eternity  
The bastions of penitentiary  
Reaction will pull broken hearts through

The can't take away
