

# Union

Son Volt

Upstate versus downstate  
City versus county  
Rural versus urban  
Red versus the blue

He said National Service will keep the Union together  
He said National Service will keep the Union together

Privileged and the poor  
Every class and every color  
Together in spirit  
Building blocks of a nation

He said National Service will keep the Union together  
He said National Service will keep the Union together

A two-party system  
The donkey and the elephant  
Liberals and conservatives  
Each fight for their own survival  
He said National Service will keep the Union together  
He said National Service will keep the Union together

He said National Service will keep the Union together  
He said National Service will keep the Union together
