Amen

Sondae

Jesus, please don't let me go
Without You I can't be bold
Let me be tried by fire
Purify me to shine like gold, huh
How can I get closer to You?
You're closer than I can imagine
I will raise a hallelujah
Because You showed me compassion

When I'm going through the pain and I can't see how You going to set me free
Maybe I don't need to understand Your ways because You're taking care of me
You got the power, Lord
You are behind everything that I cannot see
You are the One and only who can set Your people free and open the sea

If I lose everything I worked for
If I don't get the things I prayed for
If I lose everyone that I love
I know You're watching me from above

O Lord, You are for me
You satisfy every need
O Lord, You are for me
You satisfy every need

Every knee shall bow to Your holy name
Every tongue proclaim You are Lord, amen
Every knee shall bow to Your holy name
Every tongue proclaim You are Lord, amen

You can refine me through fire, I don't mind as long as I open up like gold
I wanna travel the universe with You and see how the story unfolds
I wanna be a reflection of Heaven, do You see Your glory in me?
Jesus, now it's me and You; as long as I love You, I'm eternally free (Yeah)
You can refine me through fire, I don't mind as long as I open up like gold
I wanna travel the universe with You and see how the story unfolds (Story un
folds)
I wanna be a reflection of Heaven, do You see Your glory in me? (Glory in me
, yeah)
Jesus, now it's me and You; as long as I love You, I'm eternally free

If I lose everything I worked for
If I don't get the things I prayed for
If I lose everyone that I love
I know You're watching me from above

O Lord, You are for me
You satisfy every need
O Lord, You are for me
You satisfy every need

Every knee shall bow to Your holy name
Every tongue proclaim You are Lord, amen
Every knee shall bow to Your holy name
Every tongue proclaim You are Lord, amen, oh

Oh

Story unfold
Glory in me, yeah
