

Every Step

Sondae

Uh, show me what is new and fresh
And all the time, let me pray under the pressure
I wanna be your friend 'cause if I do big things
God, I know that you won't be impressed
And like the woman whose daughter became possessed
She had faith in you no matter the mess
I wanna be like that, so when things go bad
I will not turn around and forget your message

It's how I talk to you when nobody looks
It's how you are the soil to get me fruits
It's how you're a good God, that when I was flawed
You became a man to bring me the good news
Woi, what a blessing, God, I love you
I am standing right before you
What a blessing, God, I love you
More than all things, I adore you

You're more than enough for me, Lord
My hiding place is in you, oh
Seven times I fall and rise up
You guide every step, oh, good Father

Show me what is good and true
And I will never follow the ways of a fool
I'm laying back like they do it in Quebec
You're the captain of the ship
Jesus, take over the deck
Uh, waves rise up and try to take my peace
Lord, your voice is what they cannot miss
Many times I try to get the gist
Day by day, I'm learning what love is

To you when nobody looks
It's how you are the soil to get me fruits
It's how you're a good God, that when I was flawed
You became a man to bring me the good news
Woi, what a blessing, God, I love you (God, I love you)
I am standing right before you (Right before you)
What a blessing, God, I love you
More than all things, I adore you

You're more than enough for me, Lord
My hiding place is in you, oh
Seven times I fall and rise up
You guide every step, oh, good Father
You're more than enough for me, Lord
My hiding place is in you, oh
Seven times I fall and rise up
You guide every step, oh, good Father

You are more than enough
My hiding place is you
Seven times I fall and rise
You guide every step, oh, Father
