

more than everything

Sondae

God I need You
More than ever
Lord I love You
More than everything

God I need You
More than ever
Lord I love You
More than everything

It's been a while
Since I made time to spend time with You
To be here with You

And You were right
You're always right
Oh God to You there's nothing new
I'm so in love with You

Running always made me end up in the same place
But Jesus You're the way I follow
My head I lay

God I need You
More than ever
Lord I love You
More than everything

God I need You
More than ever
Lord I love You
More than everything
