

No One Else

Sonae

Father, I surrender
Once for all 'cause I don't
Wanna live this life all on my own
Even though I don't see
I know that You are here
I only need You and no one else

I only need You and no one else

I only need You and no one else
Only only You and no one else, no one else

It's not by might or by power
Only by Your Spirit
I do not wrestle with flesh and blood

And all the time
Let me I follow You oh, Holy Spirit
In Your love I want to overflow

In the valley I put my faith in You
On the hill I will never forget You
Give me wisdom for the things I don't know
And I'll Praise You, God and You, God alone

You called me to walk on the narrow road
Come with me Lord, I cannot go solo
You're my Father, my Friend and my Lord
Bring me back to Your ways when I detour

Father I surrender
Once for all 'cause I don't
Wanna live this life all on my own
Even though I don't see
I know that You are here
I only need You and no one else

I only need You and no one else
Only only You and no one else, no one else
I only need You and no one else
Only only You and no one else, no one else

I only need You and no one else
Only only You and no one else, no one else
I only need You and no one else
Only only You and no one else, no one else
