Said you wanna be close to me tonight
Baby show you're right
You've been holding on to desires
It's been raining all night
Now I don't wanna put pressure on you
If you don't think you're ready
Girl, I'll only put pressure on it
If you let me

You've been searchin' for this long and hard
(Searchin' long and hard)
You've been staring at it all along
You've been searchin' for me all along
You don't have to keep on waiting
Girl, I heard you call
(I heard you call)

You said you been calling me, I'm outside
Let me ease your mind
You've been holding on to your pride
But I know what's inside
So don't let me put no pressure on you (if you don't think your
ready)
Oh no
I'll only put pressure on it
If you let me

You've been searching for this long and hard
(Searching long and hard)
You've been staring at it all along
You've been searching for me all along
You don't have to keep on waiting
Girl, I heard you call
