

# I know something that's gonna break your heart

Sondre Lerche

I know something that's gonna break your heart  
Don't say I don't love you  
I know something that's gonna break your heart  
Who am I to tell you?  
Love's a dangerous disguise  
For a pair of starving eyes  
I hate to tell you but I'm gonna fail you

Tonight  
Can never let us down  
Tonight  
Can never let us down  
Tomorrow will break your heart

(Break...your...heart.)

I know something that's gonna break your heart  
And I'll always love you  
I know something that's gonna break my heart  
If I ever tell you  
Love's a theater of needs  
For a pair of hopeless leads  
You won't believe me, but you're gonna break me

Tonight  
Can never let us down  
Tonight  
Can never let us down  
Tomorrow will break your heart  
Tomorrow will break your heart  
Now I'm gonna break your heart

I know something that's gonna break your heart  
I know something that's gonna break your heart  
I know something that's gonna break your heart  
I know something that's gonna break your heart  
I know something that's gonna break your heart
