Catch man stepping out all black
Coming like I'm from New Zealand
Tell a wasteman, trust me, fall back
Something like american seasons
Unknown number, Fam I don't call back
Baby got backs and breast and all dat pull tha
Said he got cali and all tha
Sombrero man I just all cap

Catch man stepping out all black
Coming like I'm from New Zealand
Tell a wasteman, trust me, fall back
Something like american seasons
Unknown number, Fam I don't call back
Baby got backs and breast and all dat pull tha
Said he got cali and all tha
Sombrero man I just all cap

Warm up session, not talking pre drinks
Come 2nd if I thought what he thinks
But there's no one like me so no one likes me
So I stand out like clean kicks
But I'm out of this world space bar
But I stay lowkey, space bar
Then man never taste success but I always win
So they just wanna taste ours

Punchlines, body and slap words
Love from Surrey and Frankfurt
Old girls aren't peng anymore
But they were fit like their Loreal advert
Don't tell me that I'm not hard
If you don't rate this then you don't rate bars
And feds are always on snow patrol
There's no wonder their chasing cars

Now we get crem that's brulee
Creps got new stains
Ex still two faced
Chess got new plays
Peng ting tryna slide in like a blueray
True say gyally get played like a new game
Tell a 10/10 girl bring her arse back
We can bun a q like a thorpe park fast track
Ask the mandem, Songer, where's the bars at?
That's a fact these other rappers can't chat

Catch man stepping out all black
Coming like I'm from New Zealand
Tell a wasteman, trust me, fall back
Something like american seasons
Unknown number, Fam I don't call back

Doing this for marj
Ain't talking cheese, ain't talking like you
And I'm in it for the p's
No STT's when I contract these
Whipped out a bitch and I'm in it for the cream
Man are saying that I mean, but I dunno what they mean
I ain't ever been mean, I'm just being me
And, you can be you, I ain't tryna gas you
Like who man who?
When they coming after you
Saying you smoking or not?, smoke on a zoot

I ain't really lieing bout what they do in their tunes
But I'm big like Ben
Great like Dane. First to a say
Now I'm going insane cus all these fake people fuck with my brain
Imagine if I got all the money and the power in a game
Oh shit, You remember the name

Life ain't no 100 meter sprint
And you can't call me Usain
Don't get about like you
What the fuck are you saying?
Girls got game, I'm just tryna play
I know she been thinking about me all day
But no way, but no way, but no way
Been writing shit the whole day, the whole day the whole day

Catch man stepping out all black

Mandem call me Mc Lovin
But their girls all loving this MC
Then they get backwards
When I attack with lyrics when I sit
And I kiss my teeth
Off grid just spraying I'm ghost
New free garms just came in the post
And I stack bread
That's 2 ways I'm raising a toast

Kidzilla, sick spitter
Next year bank account 6 figure with a blick vimmer
Zin zimmer, see a chick with a big dream
Make a rich boy the dig digger
I got pain in my chest and my mental
Get brain off the best, that's dental
But I'm frayed when I'm stressed got zeds full
But it must be a dead, man I'm deadpool

I've been on the wave for a minute
Trust been tryna get paid for a minute
Kick back wanna take a break for a minute
Cus your girl been tryna give me brain for a minute

See, I've been on the wave for a minute
Trust been tryna get paid for a minute
Kick back wanna take a break for a minute
Cus your girl been tryna give me brain for a minute
