

Never Pretend

Songer

She be on my mind tonight, mind tonight
I'm soon to blow, guess we both dynamite, yeah yeah
I fall in love, I cannot breathe, she got my heart, it's on her sleeve
And please don't ask, I know your needs, and we'll just laugh and then make
peace
Forever and ever and ever and ever and ever
Swear that we'll never pretend, yeah
And for forever and ever and ever and ever and ever
Swear that we'll never pretend

She be on my mind tonight, mind tonight
I'm soon to blow, guess we both dynamite, yeah yeah
I fall in love, I cannot breathe, she got my heart, it's on her sleeve
And please don't ask, I know your needs, and we'll just laugh and then make
peace
Forever and ever and ever and ever and ever
Swear that we'll never pretend, yeah
And for forever and ever and ever and ever and ever
Swear that we'll never pretend

My girl's peng in a bueno
Anyone else, say "hasta luego"
Elegant, classy, pretty angelic
Still wanna get pipe down when I say so
Dick game just got free wheel up, got manaman feeling like Kano
Can't chat about that too much, 'cause this right here could bang on the rad
io
This right here could pop off, convertible girl, she taking her top off
Might give her 2s in a zoot, Jamie style, knocking her block off
I can make grime or pop or just hip hop, but still I'm out raving
Man wanna know where the name comes from, I tell 'em it's on my papers

And every other week we let the world know
The only way is love
She be on my mind like every week
Can't avoid it when I'm tryna get to sleep, yeah

She be on my mind tonight, mind tonight
I'm soon to blow, guess we both dynamite, yeah yeah
I fall in love, I cannot breathe, she got my heart, it's on her sleeve
And please don't ask, I know your needs, and we'll just laugh and then make
peace
Forever and ever and ever and ever and ever
Swear that we'll never pretend, yeah
And for forever and ever and ever and ever and ever
Swear that we'll never pretend

She be on my mind tonight, mind tonight
I'm soon to blow, guess we both dynamite, yeah yeah
I fall in love, I cannot breathe, she got my heart, it's on her sleeve
And please don't ask, I know your needs, and we'll just laugh and then make
peace
Forever and ever and ever and ever and ever
Swear that we'll never pretend, yeah
And for forever and ever and ever and ever and ever
Swear that we'll never pretend
