

Orange (Soul Food)

Songer

The fact our life goals are to be something that we're not already
Really says it all
I don't really know content souls
We've got two eyes like Nintendo's
But forget look around us at the beauty when we're walking and we're ten toes
It's every day on iInsta on explore page but haven't been exploring since a kid
Shout your boys go running or find a tree to climb
You only live once, remember that
Unfortunately I've got no choice, my brains like that
I'm with people that cling on and crave life back
But when you lose your everything it's nothing that will fight back
If nothing is your everything, you've got it to lose
And if love defines a wedding ring, I'm copping a few
Heart's heavy but it's heavy 'cause I told it the truth
I want seven Benz lined up, they're forming a queue
Bars flying over people like they normally do
I just had an early night it's fucking quarter to two
I just need to change my attitude I'm comfy where the back seat is
People say I need to pull my socks up, I'm Jack Grealish
Shepherding the sheep but most of Shepard turn to act sheepish
We would rap neeners, talk about the bad teachers
Amount of times I asked for notes would leave the bank speechless
Funny we had cleaners, funny my dad seen us
30 songs, 100k plus with no mad features
Just me and all my boys with no help
But I can be a dickhead trust me boys be boys
I'm Gareth Southgate when I'm flirting with women to find the right backs I'm spoilt for choice
But they can never play James 'cause paranoia my voice
5 digits in my savings so your comments are void
That's why I'm always getting head because you bottom my coin
I'm seeing hate for Ollie Ball it builds my love for the boy
People love you 'till you're winning then they'll rob you of joy
I think love is important
I ain't single I've been talking to my demons for months
That's THC stop pretending you put lean in your cups
Just strap a zoot and drink Copella, man are dreaming to stunt
Like Tony Hawk but at least he grew to wheely the front
My ex stressing about the women in DM's she think I maybe kissed 'em
Know that I'm the truth

These women swallow baby wisdom
Middle class rapper when I speak I've got amazing diction
Past the point of caring that my boys have got a grade addic
