

The Body Burned Away

Songs: Ohia

Death as it shook you
You gave it a fool's look
You said I am an empty page to you
Give me your hand give me you blood
Don't misunderstand
I once had all the words
I forgot all the words

Held the binding lightning
Held the binding lightning

Began to burn away
We began to burn away

Held the binding the lightning
Held the binding the lightning

Began to burn away
Began to burn away

The body burns away
The body burns away
The body burns away
The body burns away
The body burns away
The body burns away
