Songs: Ohia

never forget it was triumph we once proposed
instead, you would trade our mission for mission words
our several months alliance divergent invitations
then policies they were very low you see
we'll look of course to it
the ones you know you are building
so then, i'd like to see a little low illumination
so i may go around 9:00 or 9:30
who knows what (x2)
so then, i have to be going
okay
