

Marching Round In Circles

Sonic Boom Six

Marching round in circles round another institution
Whilst the people on the inside are planning our
destruction

Marching round in circles round another institution
Another demonstration that our freedom's an illusion

They knew that we were coming
We asked them if we could
They organized our protest
They laid it on for us
They let us make a noise
They let us march around
In a specially built police-cell
They call Trafalgar Square

If no-one breaks the rules
Nothing will change
If no-one breaks the laws
It will always be the same
Step out of line
Increase our demands
If we don't break the rules
We just go round and round and round and round and
round

Marching round in circles round another institution
Whilst the people on the inside are planning our
destruction
Marching round in circles round another institution
Another demonstration that our freedom's an illusion

They knew that we were coming
We asked them if we could
They organized our protest
They laid it on for us
They let us make a noise
They let us march around
In a specially built police-cell
They call Hyde Park

If no-one breaks the rules
Nothing will change
If no-one breaks the laws
It will always be the same
Step out of line
Increase our demands
If we don't break the rules
We just go round and round and round and round and
round

[Song repeats from beginning]

Round and round and round and round
