

## Virus

### Sonic Boom Six

It's like a virus, and it's coming to get you my friend  
No one is immune or fit to defend  
The poison in our veins that spreads as we play pretend  
It's coming to get ya!

It's like a virus, and it's coming to get you my friend  
No one is immune or fit to defend  
The poison in our veins that spreads as we play pretend  
It's coming to get ya!

It's like the rising tides of polluted seas  
It's like the credit card with the hidden fees  
It's like the man that sleeps on the street tonight  
And when he asks us for change we avoid his eyes

It's like the cost of sending out our troops to war  
Could be the, money spent on helping out the poor  
It's like the pensioner inside the bungalow  
Who can't pay for the heating and dies in her sleep  
alone

No vaccine that I've seen  
Only the writing on the wall  
White Blood cells inside our system don't work at all  
No vaccine that I've seen  
Only the writing on the wall  
The writing on the wall

It's like a virus, and it's coming to get you my friend  
No one is immune or fit to defend  
The poison in our veins that spreads as we play pretend  
It's coming to get ya

It's like a virus, and it's coming to get you my friend  
No one is immune or fit to defend  
The poison in our veins that spreads as we play pretend  
It's coming to get ya

It's like the nurse that's working 12 hours a day  
It's like the thirty-five grand for a bottle of  
champange  
It's like the multinationals avoiding their taxes  
While they're raising VAT for bailing out all the  
banks. It's

Like the kids that smashing up the Cash Converter  
It's the bonus for the bosses of the corporate merger  
The way we call quarantine for everyone else  
And never even realise are the virus ourselves

No vaccine that I've seen  
Only the writing on the wall  
White Blood cells inside our system don't work at all  
No vaccine that I've seen  
Only the writing on the wall  
The writing on the wall

It's like a virus, and it's coming to get you my friend  
No one is immune or fit to defend  
The poison in our veins that spreads as we play pretend  
It's coming to get ya

It's like a virus, and it's coming to get you my friend  
No one is immune or fit to defend  
The poison in our veins that spreads as we play pretend  
It's coming to get ya
