

Halfway Down the Road

Sonic Syndicate

I thought I needed you
But I was wrong and now you feel it too
Now you're drinking alone, on your own
By the phone, waiting for a call
But they never do

Its a shame to waste
All the memories within this place
But you know what they say
If you stay you will pay
With more than just your dignity
It's all coming down

No guts no glory
You want the rewards
But you ain't got the stomach
No pain no gain
I waited for you but you're not coming

Halfway down the road
You gave up on what you were owed
You pushed all your luck but it wasn't enough
But you got halfway down the road
Halfway down the road

Its time to fade to black
Pour some out for the final act
Take a walk through the valley
But sadly its gonna end badly
Like things always do
Like they always do

No guts no glory
You want the rewards
But you ain't got the stomach
No pain no gain
I waited for you but you're not coming

Halfway down the road
You gave up on what you were owed
You pushed all your luck but it wasn't enough
But you got halfway down the road
Halfway down the road

No guts no glory
You want the rewards
But you ain't got the stomach
No pain no gain
I waited for you but you're not coming

Halfway down the road
You gave up on what you were owed
You pushed all your luck but it wasn't enough
But you got halfway down the road
Halfway down the road

(Halfway down the road)

(Halfway down the road)
(Halfway down the road)
