Can I have some money?  
I'm gonna go to the store  
Can I have some money?  
I can't tell you what it's for  
Can I have some money?  
You know it's you that I adore  
Can I have some money?  
Don't ask me what it's for

Since we've been together you've been good to me  
You only hit me when you wanna be pleased

Can I have the car keys?  
I'm gonna go for a ride  
Can I have the car, please?  
I'm going out for a while  
Can I have the car now?  
I wanna drive all around  
Can I have the car, dear?  
I'm going to leave this town

I won't be asking your permission to leave  
I won't be asking not to have this baby please  
And I won't be asking don't point some bust at me  
And I won't be asking I had to see you bleed

Visualize  
That's right  
Forever we  
One, two, three

Can I have my lipstick?  
That was such a surprise  
Can I have my lipstick?  
I'm going out for a ride  
I'm not a little girl  
And you sure are not my dad  
You don't even know what you almost had
