Make It Personal

Sonny Alven

Take your time, lay down your head
Stay with we, there's no one here
Leave your voices, outside the door
We're here for love, not for long

I see crimson, crimson
I see blood in these red skies
We get higher, higher
Then our demons can't survive

When we make it personal
Make it personal
Make it personal
When we make it personal

Never known, how to feel
My heart's in prison
My scars won't heal
You keep fighting, fighting
So I'm not hurting, hurting
No one gonna win this anymore
There's no fear of letting go

When we make it personal
Make it personal
Make it personal
Make it personal
When we make it personal
(Take your time, lay down your head)
Make it personal
Make it personal
(Stay with we, there's no one here)
When we make it personal

You keep fighting, fighting
So I'm not hurting, hurting
No one gonna win this anymore
There's no fear of letting go

When we make it personal
Make it personal
Make it personal
When we make it personal
