

## Dance

Sonny Digital

Sonny Digital  
Sonny rollin' grams of wax, yeah  
Dancing through the night  
Dancing 'til the sunrise  
Dancing every night  
Dancing 'til the sun lights

Free your soul  
Leave the stress at home  
Move with me  
I can't groove alone  
Free your soul  
Leave the stress at home  
Move with me  
I can't groove alone  
Got me running through the late night, yeah, yeah  
Last night was a great night, yeah, yeah  
Wish every night with something like that  
Wish every night with something like that

All we want to do is just dance (Yeah, yeah)  
All we want to do is just dance (Yeah, yeah)  
All we want to do is just dance  
All we want to do is just dance (Yeah, yeah)  
All we want to do is just dance (Yeah, yeah)  
All we want to do is just dance

The party just begun  
Under sunlight, let's have some fun  
I seen the stars and I seen the moon  
Been around the universe looking for you  
'Cause I want to groove  
'Cause I want to groove  
If it's a limit  
Then we gon' go  
But it ain't no limit  
To where I can go  
And my love is like a black hole  
'Cause you never know with that go  
Go to dance every twenty-four  
If you want to move get up on the floor, yeah

Free your soul  
Leave the stress at home  
Move with me  
I can't groove alone  
Free your soul  
Leave the stress at home  
Move with me  
I can't groove alone  
Got me running through the late night, yeah, yeah  
Last night was a great night, yeah, yeah  
Wish every night with something like that  
Wish every night with something like that

All we want to do is just dance (Yeah, yeah)  
All we want to do is just dance (Yeah, yeah)

All we want to do is just dance  
All we want to do is just dance (Yeah, yeah)  
All we want to do is just dance (Yeah, yeah)  
All we want to do is just dance
