Tired counting paper, man, I'm yawnin'

Callin' me, but you don't really want nothin'
I done' stayed up till the nigga came up
Now I'm gettin' money, yeah yeah I'm way up
Yuh, wanna see me, nigga, now you betta pay up
All this shit you neva gave us we still made it, yeah eh-yea
People, they always gon' come around
Not when that money up but when that money down
No no, them people they not around
No no, them people they not around
No no no no no no no

People, they always gon' come around
Not when that money up but when that money down
No no, them people they not around

Every night we prayed up, the Heavenly lord will save us
I don't want none of yo handouts or none of your favors
Funny how 'em niggas played us, now nigga we the players
