

Never Again

Sonny Digital

Uh, okay
Things ain't been the same since money came
Boxed in like a picture frame
Small minded (Niggas) he got a pigeon brain
No, I ain't tryna switch the game, GPS a different route
Put me in a different lane, no, you never seen it
But I always had the vision, mane
Not in my math class, me and my dawgs always skippin', mane
Now I look back used to think mama was always trippin' mane
I just ain't get a thang
Oh shit, I ain't have a clue, just look how we livin', mane
Somethings you'll never notice 'til you grow up
Like hol' up
Like every year you here, why the rent it's gotta go up
Door been off the hinges but the maintenance man won't show up
Really from the bottom and that's why they love my glow up
Say you real, then show us
Oh, you got some money? Me too, my nigga, so what
Some niggas like to drink, some niggas they po' up
Went from two to fo' cups
You know the fee, just hit up Ric and book the show I'll show up

Never again (I swear I)
I, nah
Never again
I swear I (Fuck you)
I can't love you (Love you)
Fuck you (Fuck you)
Touch you (Touch)
I want you
How you turn your back when I needed you? (How you turn it?)
Only trust in God, can't believe in you

Patience is a virtue, I won't hurt you 'less I'm tempted
Almost caught a body and that wasn't off pure intention
I did everything, I even kicked it with some peasants
But mama raised a king, so only thing I took was lessons from them
More pain from those, cross arrows with bows
Still wrapped like a gift, summer time, it was cold
Feelin' pain, yeah, I know, but I'll be damned I let it show
Just let it grow and let it blow l like C4
Damn
Tell me what you seein'

Uh, Club Digi reposado bitches turnin' demon
Tell me what's the reason
When you caught the vibe, you change yo' mind just like the season
Sed', I know you see it

Swear, I know I see it
Super seasoned like it's Houston back on Peachtree
Lotta BBLs down my TL if I'm TBH in' it
And I fucked before the new body
She screamin' "Have some patience now"

Never again (I swear I)
I, nah

Never again
I swear I (Fuck you)
I can't love you (Love you)
Fuck you (Fuck you)
Touch you (Touch)
I want you
How you turn your back when I needed you? (How you turn it?)
Only trust in God, can't believe in you

These niggas
We need to stay away from these (Niggas)
I can't love you, trust you (Ooh)
How you turn your back when I needed you?
