

# Need

Sonny Fodera

Fantasy, frighten me  
Like a me to the week, oh, no  
Physically, I'm not here  
Just a tease, nothin's clear, no, no

And I'm never knowin' nothin', no  
What's wrong? I just close the door  
But I'm here like a child  
And all I know

With these nights alone  
Can you always be there to call?  
I feel, I feel, feel  
I feel, feel, I feel

With these nights alone  
Can you always be there to call?  
I feel, I feel  
In need of someone

I need someone  
I need, I need  
I need someone  
I need someone  
I need, I need  
I need someone  
I need someone

You're in a tree, plant a seed  
Heart can be, I just need love  
Failure meets, off to care  
Not aware, I'm not there, cheer up

I'm never knowin' nothin', no  
What's wrong? I just close the door  
But I'm here like a child  
And all I know

With these nights alone  
Can you always be there to call?  
I feel, I feel, feel  
I feel, feel, I feel

With these nights alone  
Can you always be there to call?  
I feel, I feel  
In need of someone

I need someone  
I need, I need  
I need someone  
I need someone  
I need, I need  
I need someone  
I need someone

I need someone

I need someone
