Euphoria
That feeling I've been feeling right now for ya
That something that I've never felt before ya
I swear I'm sober, oh
But I ain't coming down
Nirvana
The greatest of escapes from all the drama
Never thought I'd find it in a lover
And there's no wonder, oh
That I need you around

'Cause you gave me a little, now you gotta give me some more (More)
You've broken the seal and my feelings been running like water (Water)
Only a touch and my body has gone into overload
And I don't think you know

Your love is a drug and it's getting me wired
It's all in my lungs and it's taking me higher
All I wanna do
Is keep breathing in you
Like that first time high
You got me wired

Say you got, you got, you got, you got, got me wired
Say you got, you got, you got, you got, got me wired
Say you got, you got, you got, you got, got me wired
Say you got, you got, you got, you got, got me wired
