

Heartbeat - Christopher Bissonnette

SONOIO

It's like a song, that no one hears
I'm screaming out, but you're not here
All I wanna do
All I wanna do
Is say I love you
All I wanna do
All I wanna do
Is say I care

Words don't work
Feeling like they have no worth
Here and now
Is nothing in between

How could I
Ever describe the way I feel?
Why should I
Even try when obviously
All the words that I say seem to get in my way
Only wish I could
Say it with a heartbeat, say it with a
(Say it with a, say it with a...)

It's like a stage
Without a crowd
My best performance

But no one's proud
All I wanna do
All I wanna do
Is say I love you
All I wanna do
All I wanna do
Is say I care

I swear my words don't work
Feeling like they have no worth
Here and now there's nothing in between

How could I
Ever describe the way I feel?
Why should I
Even try when obviously all the words that I say
Seem to get in my way
Only wish I could
Say it with a heartbeat
(Say it with a, say it with a)
Say it with a heartbeat
(Say it with a, say it with a)
Say it with a heartbeat
