Everything I want is right in front of my face  
I always keep it movin' like...

I always keep it movin' like a relay  
Seen more ups and downs than a vocal run from T-Pain  
Negative vibes I don't wear 'em like peacoats  
Even my throwaway tracks low key dope  
First ya, first ya, first ya get good then ya get fast  
Break a bar off like a KitKat, my new shit give ya whiplash  
For the cameras she'll do anything  
Go take off her wedding ring  
He'll do whatever it takes to get a click

Even petty things, yeah  
Too hot for TV  
Too hot for TikTok  
This that big bop  
Check the discog  
I got grit dog  
All I need is this life I live cause

Everything I want is right in front of my face  
I don't got no time to waste  
I play everything but safe  
That's why I feel like

Tom Petty free fallin' on the freeway ahhh  
Hand this one off to the DJ dog  
Imma go hard like it's my bday y'all  
Pullout your cameras, go bananas

I'm not on that goofy boujee doodie newbie floozie Dr. Suessy flow  
I'm choosy with my looseleaf as I ooze out my jacuzzi flow  
The truth hurt ya it's ugly ugly as a PT Cruiser though  
I came in here with nothing but my word and my home studio

I got a lot to give, Imma give it cause I wanna  
I love the screen time but I don't really love no drama  
I got that new shit so Imma plant it like a farmer  
I let my feeling splat - bring it back

I look at all my problems, they seem bigger than they are  
When I heard that Malcolm passed I put my head against the wall  
I was stressing just that morning 'bout something I can't recall  
Then I called my mother told her that I love her cause I know that

Everything I want is right in front of my face  
I don't got no time to waste  
I play everything but safe  
That's why I feel like

Tom Petty free fallin' on the freeway ahhh  
Hand this one off to the DJ dog  
Imma go hard like it's my bday y'all  
Pullout your cameras, go bananas

Turn this one up and hit the e-brake ahhh

Half-court shot instant replay dog  
Imma go hard like it's my bday y'all  
Pullout your cameras, go bananas
