Who dat who dat who dat I need no introduction  
Came wit the gas that's why my new shit pungent  
Feel like Johnny Cash 6 strings in the dungeon  
Pull up in a lemon - 6 deep to the function  
Turn this shit up I call this venting time  
Most these guys sounding like they telling lies  
I wrote this next line red eye flight  
You ain't fuckin with me then you dead inside  
Out work em all - DJ Khalil told me that  
I got a crystal ball - and the future looking fast  
They say I got no genre but a genres just a box  
I'm that singy rappy mutha fucka taking what I want  
Self made so they can't ever make up what they make of me  
Same team clique keep it tight as Elvis Stoyko's jeans  
Hear the songs I write with a pen you feel the pain in me  
They tell em what they want I tell em what it is don't play wit me

I found my love  
Once I stopped seeking it in you  
And now I trust  
In everything that I always knew  
This my desire desire desire  
This my desire desire desire  
This my desire desire desire  
This my desire desire desire

I got moves wit it - got the juice with it  
Go Springsteen go Bruce wit it  
When I kill shit they say who did it  
Mr Green ain't even got a clue with it  
My desire sire  
Make me a fight fighter  
Yea, I'ma pyro pyro  
Catching fire fire  
Move move move move move  
Get out ya way  
Yea, move move move move move  
Get out ya way  
No one travel just where my lane went  
3 kids couldn't even slow me down  
Been stair climbing now way up  
Still see it all from the underground  
Step forward I don't step back  
Yea, I'm resetting my set backs  
The old me has a funeral  
Every time I write I'm in jet black  
I go head on I don't head back  
I'd rather fall flat and come dead last  
Then go half ass - with a cheek out  
I don't seek clout I just speak out  
My catalogue no Pokemon  
But like Fantano ya can geek out  
Got the keys out I'm bout to flea south  
When the album done I just re route  
I write these words from deep down  
Then I throw em out like their fireworks  
This a celebration been hella patient fuck validation

I found my love  
Once I stopped seeking it in you  
And now I trust  
In everything that I always knew  
This my desire desire desire  
This my desire desire desire  
This my desire desire desire  
This my desire desire desire

I found my love  
Once I stopped seeking it in you  
And now I trust  
In everything that I always knew  
This my desire desire desire  
This my desire desire desire  
This my desire desire desire
