Fearless

SonReal

Stuck to mine so you know I'm never gun shy
Since I had a backpack full of thumb drives
Shits ironic how I rarely saw the sunshine
That's all I know
At my dads sleeping on a broken mattress
He said if you really want it gotta practice
Cigarettes in the tray full of ashes
That's all I know, know
Everybody got some problems
Ain't nobody ever wanna solve them
Lately I been really trying to talk more
Been haven little trouble with god though
Life come at ya with the rip tides
Hard to be human on the inside
Hard to admit I admit I
Told you I'm okay but

I don't want to wait no more
Leave this for my past
I don't feel no pain no more
Hard times never last
I don't feel the same no more
So you don't need to ask
Why I don't sing the same old songs
Hard times never last

We goin' take it higher
We goin' let this fire burn
One thing I admire
Someone who's fearless when it hurts

Poppin' pills when the camera down who knew
Got control but sometimes he go voodoo
You know this life'll drive a sane man coo coo
Oh la la la
Everybody need escapes from the wild things
Who this whole damn world feel like an island
Now you gone you inspired how I'm rhyming
God rest his soul, soul
Everybody got some problems
We ain't never ask till they gone tho
Lately I been stuck at the bottom
Feel like reaching for the bottle
Life come at ya with a rip tide
Hard to be human on the inside
Hard to admit I admit I
Told you I'm okay but

I don't want to wait no more
Leave this for my past
I don't feel no pain no more
Hard times never last
I don't feel the same no more
So you don't need to ask
Why I don't sing the same old songs
Hard times never last

We goin' take it higher
We goin' let this fire burn
One thing I admire
Someone who's fearless when it hurts

We goin' take it higher
We goin' let this fire burn
One thing I admire
Someone who's fearless when it hurts
