La dee da dee da dee, they just wanna party
But when shit like this in front of me
You know it's gettin' bodied, I be
La dee da dee da dee, they just wanna party
But when shit like this in front of me
You know it's gettin' bodied, I be

Yeah yeah, hallelujah, hallelujah, I just found some faith today
I see you wildin', baby, that's that shit that made my day
And I been beamin' like nah nah nah
You can't catch me, you can't catch me 'less you run like moi

I do it biggie like Diddy, I give two fucks, no more shitty
They talk shit right behind my back, I do a backflip, 360
I mix that trap rap with the backpack, then I ransack your city
I turn that shit up like a motherfucker [?] for the kiddies, We Go
What the fuck is a cosign when I got a flow
Nine times better than a bro rhyme?
'Bout to blow minds but the bro can't slow down
Fuck that, all a bro see is gold signs
Sittin' on a gold mind, sure to see a landmine
Callin' all the shots now, I should get a landline
I'ma take my damn time like I'm on my lunch break
Quit my old job 'cause my boss was a fuck-face, hold up
Hallelujah, hallelujah, I just found some faith today

La dee da dee da dee, they just wanna party
But when shit like this in front of me
You know it's gettin' bodied, I be
La dee da dee da dee, they just wanna party
But when shit like this in front of me
You know it's gettin' bodied, I be

Yeah yeah, hallelujah, hallelujah, I just found some faith today
I see you wildin', baby, that's that shit that made my day
And I been beamin' like nah nah nah
You can't catch me, you can't catch me 'less you run like moi

She said I'm the man, I told her, "Yep, I agree"
I just made a hundred grand, but I'd do it for free
They can call the bros a flunkie like the great ODB
But I'ma be on for a while, so don't you leave that TV
I shoot a video in like three days
I got one [?] for like 80 bars
I don't give a shit you got like 80 cars
You a grown man spittin' baby bars
My old girl told me I'm not quite as good as my favorite rapper
I went home that very night
And wrote seven songs, then dumped her after, like
Hallelujah, hallelujah, fate's all I'm shootin'
These rappers outfits lookin' shitty as a fuckin' Fig Newton
You see that line up down the street, I guess we fuckin' recruiting
To hear the story that I raised [?]
And sleep with a ruler, you know
Hallelujah, hallelujah, I just found some faith today

La dee da dee da dee, they just wanna party

But when shit like this in front of me
You know it's gettin' bodied, I be
La dee da dee da dee, they just wanna party
But when shit like this in front of me
You know it's gettin' bodied, I be

Yeah yeah, hallelujah, hallelujah, I just found some faith today
I see you wildin', baby, that's that shit that made my day
And I been beamin' like nah nah nah
You can't catch me, you can't catch me 'less you run like moi

Like I ain't never built everything I got here
From that Vancouver ground, blaow

La dee da dee da dee, they just wanna party
But when shit like this in front of me
You know it's gettin' bodied
We near, oh no, halle-hallelujah
We near, oh no, halle-hallelujah
La dee da dee da dee, they just wanna party
But when shit like this in front of me
You know it's gettin' bodied
We near, oh no, halle-hallelujah
We near, oh no, halle-hallelujah
