

Running outta things that I have to do
Like eating sushi out in Malibu
Back to Canada I flew the coup
Cause peace is something that I never knew
I always act like I be out time
I have no pressure but I put that pressure on myself
Lately I do whatever I like
Cause you used to do you

Feelin' like I'm on top no under-dogging
Been around the block come check the places I've been
I could never stop when that green light stay glowing
Cause I used to do you

And I'm sick of feeling
Hollow, hollow
Now I don't follow
No hollow, hollow dreams

And I'm sick of feeling
Hollow, hollow
Now I don't follow
No hollow, hollow dreams

5 years touching road with no road stops
And I ain't even stop for no road blocks
It's hard to see the sun when your heads down
Just a king with a pencil and a lead crown
Yeah I'm a beast with this shit
All I do is think about it
Got the key to this shit
Used to doubt it now they bout it
I'ma show you that love
For the times I never got it
Cloud nine's an understatement
When you used to go to sleep feeling

Feeling
Hollow, hollow
Now I don't follow
No hollow, hollow dreams

And I'm sick of feeling
Hollow, hollow
Now I don't follow
No hollow, hollow dreams

Feelin' like I'm on top no under-dogging
Been around the block come check the places I've been
I could never stop when that green light stay glowing
Cause I used to do you

And I'm sick of feeling hollow
And I'm sick of feeling hollow
