

Last Year

SonReal

I learned this shit from my pops
I just do it, don't talk
Always knew my time would pay
Since recordin' in the loft
Give a fuck who's who
I got things to do
So I've been surfen' my own wave
On a blue Sea-Doo

They don't like me nah, 'cause no one like me nah
I press the snooze on y'all and sing 'em kumbaya
I'll sing anyway I want, I'll rap anyway I feel
I'll do everything myself ear to the ground like Holy Field

I've been gettin' lonely
Hung up on the phonies
No one even know me just last year
It's time I write this story
Now they can't ignore me
I be switchin' lanes every time I steer

I've been gettin' lonely
Hung up on the phonies
No one even know me just last year
It's time I write this story
Now they can't ignore me
I be switchin' lanes every time I steer

Who you know hittin' every angle like ma, aye
Who you know ain't afraid to talk about a loss, eh
Who you know singin' bout his writin' my pay
Very next day Five Fingers with Sway

Back and breakin' buildings down
I used to busk outside the fuckin' lobby door of
Not the best but I'll outwork anyone
Tryna tell me what I fall short of
This my life I got no option
I be movin' like I robbed a bank or somethin'
Tell me whatchya gon' make of nothin'
Lately I've been...

I've been gettin' lonely
Hung up on the phonies
No one even know me just last year
It's time I write this story
Now they can't ignore me
I be switchin' lanes every time I steer

I've been gettin' lonely
Hung up on the phonies
No one even know me just last year
It's time I write this story
Now they can't ignore me
I be switchin' lanes every time I steer

Back to doin' what I wanna

Now I can't help what I do, do
Last year came with the comma
Now this year come with the moves

I've been gettin' lonely
Hung up on the phonies
No one even know me just last year
It's time I write this story
Now they can't ignore me
I be switchin' lanes every time I steer

I've been gettin' lonely
Hung up on the phonies
No one even know me just last year
It's time I write this story
Now they can't ignore me
I be switchin' lanes every time I steer
