

Mother's Touch

SonReal

Where would I be
Without you?
Can't live without you
Can't live without you
Where would I be (I be)
Without you? (Without you)
Can't live without you
Can't live without you

Yeah, since a little boy, there's nothing like a mother's touch (Yeah)
I understand that more than ever since I had my son (Son)
When I'm not right, you give me light just like the beating sun (Uh-huh)
You taught me stand up for my feelings so I never run
Broke as a joke, tryna pick my ass up outta bed (Bed)
On my way to work, I'd call you when I was feeling dead (Always)
Inside my mind, I had a wonderland I couldn't touch (No)
You knew I didn't need the motivation, I just needed love (Love)
So here I am, Mama, stuck right to the plan, Mama (Uh)
Taught me that I can, now this slap Grandma's jam, mama (Uh)
Got myself a house, got a little piece a land, Mama (Yeah)
Not too far from you, so when you old, I'll lend a hand, Mama
You look different at your parents when you become a parent (True)
I'm so proud of how you raised me, let's make that apparent (Yeah)
I try to write it, but the pen could never hold
So the feeling that I have for you's untold, hope you know

Where would I be
Without you?
Can't live without you
Can't live without you
Where would I be (I be)
Without you? (Without you)
Can't live without you
Can't live without you

Nothing like a mother's touch, but I'm the second closest (Yeah)
Every second I'm with you, I try and make the slowest (Uh-huh)
And even when I thought my heart ain't had no room for growing
You made more room just like dessert until it hurt
Having flashbacks of my dad coming in the door from work
Squeezing me so tight, I felt the musk and sweat upon his shirt (I did)
And now I understand because I just got back from tour
And I'm squeezing my kids the same way, that's payday, yeah
What is life, what is love for me?
It's that feeling that I have when you in front of me
Little moments that you give be enough for me
And just like Mama's touch, when you down, I'll hold you up 'cause

Where would I be
Without you?
Can't live without you
Can't live without you
Where would I be (I be)
Without you? (Without you)
Can't live without you
Can't live without you

(Where would I be?)
Where would I be
Without you?
Can't live without you
Can't live without you
I be
Can't live without you
Can't live without you
Where would I be?
