

Parachute

SonReal

I dare ya come find me been grindin' since I was surfin' on the sofa
This game be like poka I own my casino so I can't go broke
My squadron they ballin' off inspiration so boy we never choke
I can't be touch like I'm Tony Toka when my pen doin' yoga
So come where I is, I'm way over there, where you couldn't find me
I'm folk with the rap, mix soul with the jazz, now I'm who I'm signing
They love when you fall, but hate when you fly, man I need some timing
So let me remind you

No parachute on me now
I can fly ya for free
Find me up in the clouds
That's where I will be
No parachute on me now
I can fly ya for free
Find me up in the clouds
That's where I will be
Till you come and find me
Till you come and find me
Till you come and find me

Savin' the day like I'm Zorro, I sing this like there's no tomorrow
I hit the Apollo after tipping back a tall boy of Sapporo
I stack it like Tetris while you binging on Netflix
I was up in the studio, put the pressure on my back I do deadlifts
So come where I is, I'm way over there, where they couldn't dare go
Fear come with love, rather die then shut up, but I guess that's just hey no
My fans they roll for me, even when this shit wasn't popping out there tho
I'm never scared tho

No parachute on me now
I can fly ya for free
Find me up in the clouds
That's where I will be
No parachute on me now
I can fly ya for free
Find me up in the clouds
That's where I will be
Till you come and find me
Till you come and find me
Till you come and find me

I cut out my fear like I cut out the noise that's on every thing I control
No ending to this, just a pen and a pad, that's on everything that I wrote
I came in this thang with nothing but a name and a reason to take it to go
I hop out the plane, you can call me insane, but just know

No parachute on me now
I can fly ya for free
Find me up in the clouds
That's where I will be
No parachute on me now
I can fly ya for free
Find me up in the clouds
That's where I will be
Till you come and find me
Till you come and find me

Till you come and find me
