

# Problems

SonReal

I've met with the angels  
Danced with the devil in my head, and that's okay  
I've tried to be the strongest  
When I was the weakest inside, and that's okay

I would wake up, all my homies so fucked  
Weight all on my shoulders  
All for this dream tonight, dream tonight  
I would fake it, hide from my mistakes  
But fears, I had to face them just to be here tonight

We've all got something to offer  
Everybody got a dream  
Everyone's got some problems, not just ones you see  
Everyone's got some falling, everybody needs to speak  
Everybody's got some problems, not just you and me  
Everybody's got some problems, problems  
Everybody's got some problems, problems  
Everybody's got some problems, problems  
Everybody's got some problems, problems

We've tried  
There's nothing wrong with being wrong sometimes  
Just not me  
Goodbye to all them L's I took last year  
I'm all mine, JOP

I would wake up, all my homies so fucked  
Weight all on my shoulders  
All for this dream tonight, dream tonight  
I would fake it, hide from my mistakes  
But fears, I had to face them just to be here tonight

We've all got something to offer  
Everybody got a dream  
Everyone's got some problems, not just ones you see  
Everyone's got some falling, everybody needs to speak  
Everybody's got some problems, not just you and me  
Everybody's got some problems, problems  
Everybody's got some problems, problems  
Everybody's got some problems, problems  
Everybody's got some problems, problems

I would wake up, all my homies so fucked  
Weight all on my shoulders  
All for this dream tonight, dream tonight  
I would fake it, hide from my mistakes  
But fears, I had to face them just to be here tonight

We've all got something to offer  
Everybody got a dream  
Everyone's got some problems, not just ones you see  
Everyone's got some falling, everybody needs to speak  
Everybody's got some problems, not just you and me  
Everybody's got some problems, problems  
Everybody's got some problems, problems  
Everybody's got some problems, problems

Everybody's got some problems, problems
