

# Nothing Comes Easy

Sons Of The East

Sleepless nights, troubled mind  
Love come save us in the nick of time  
Take my hand, we've one last chance tonight

We're burning up, blown away  
Honey like a desert day  
But from your hands, take a drink I might

And nothing comes easy, no nothing at all  
But if we believe it, we're a hundred foot tall

Riding high, feeling low  
Never seen your eyes with a darker tone  
Cause in your heart there's a missing part  
I swear

Wish that I could tell you why  
There's light up in the evening sky  
But in the cold there's the freshest breath of air

And nothing comes easy, no nothing at all  
But if we believe it, we're a hundred foot tall  
Nothing comes easy, so baby come on  
Whatever you're feeling, we can ride on

Riding high, feeling low  
Never seen your eyes with a darker tone  
Take my hand, we've one last chance tonight

And nothing comes easy, no nothing at all  
But if we believe it, we're a hundred foot tall  
Nothing comes easy, so baby come on  
Whatever you're feeling, we can ride on  
We can ride on  
We can ride on
