

## Rescue Me

Sons Of The East

Right or wrong I keep moving all the same  
Now my heart is gonna break  
Still I drag it on  
Will I wait?  
I keep moving in my mind  
Getting wasted all the time  
Still I drag it on

Are you deceiving  
Rattling my cage when I don't need it  
Feel a kind of way without no reason  
Wonder where the storm is coming from  
And I'm holding on

Rescue me  
Babe if we don't swim we're gonna sink  
I love you like a drug and I can't win  
I don't want a world without you near

Still I'm catching up  
Don't know how, I don't when  
Well it's easy to pretend  
We'll make it through somehow

Are you deceiving  
Rattling my cage when I don't need it  
Feel a kind of way without no reason  
Wonder where the storm is coming from  
And I'm holding on

Rescue me  
Babe if we don't swim we're gonna sink  
I love you like a drug and I can't win  
I don't want a world without you near, oh baby  
Rescue me  
The colour in your eyes is everything  
And it's enough to bring me to my knees  
I don't want a world without you near  
Ah yeah

Rescue me  
Babe if we don't swim we're gonna sink  
I love you like a drug and I can't win  
I don't want a world without you near
