

# Come Together

## Sons of the Sea

You float into the room, a ruffled feather  
A hint of your perfume is a comely tether  
Give back my heart you stole  
Chased down the rabbit hole  
It's undebatable...

We come together  
We come together  
We come together!

Baby could we spend month here tonight  
'Til we both are painted by morning light  
Whoever made you!  
Must've had a talent for high design  
How in the world did you get to be so fine?

I'd wait around with you, for worse or better  
But our halcyon days are few, it's now or never  
The writing's on the wall  
If I can't walk I would crawl  
You rise above them all

We come together  
We come together  
We come together

When I think that maybe I've seen too much  
You come around and dammit, I'm out of touch!  
Now I see you!  
And I need you on repeat all the time  
How in the world did you get to be so fine?

Baby could we spend month here tonight  
'Til we both are painted by morning light  
Whoever made you!  
Must've had a talent for high design  
How in the world did you get to be so fine?!

When I think that maybe I've seen too much  
You come around and dammit, I'm out of touch!  
Now I see you!  
And I need you on repeat all the time  
How in the world did you get to be so fine?

Now I see you!  
And I need you on repeat all the time  
How in the world did you get to be so fine?
