

Now

Sons Of Zion

I'm sorry it took so long but, ma, we made it
They threw out an S-O-S
Flyin' through the sky to come join 'em
Now we're ready for the come up
Are you ready for the vibe?
We're finna take you back to Zion
And there ain't no better time 'cause

If there
Was a
Gun against
My head
Then I
Would see
Everything
Differently (Ooh)

All of the things
That mattered then
They do not now

So I'm gonna smoke a little more, drink a little more
Live a little more, love a little more
Love a little more, just a little bit more
No better time to
Smoke a little more, drink a little more
Live a little more, love a little more
Love a little more, just a little bit more
No better time than now

If you said you were leaving today
Then I, then I, then I, then I
Would see everything
I would see everything differently

All of the things that mattered then
They do not now, oh
All of the fears that mattered then
They do not now

So I'm gonna smoke a little more, drink a little more
Live a little more, love a little more
Love a little more, just a little bit more
No better time to
Smoke a little more, drink a little more
Live a little more, love a little more
Love a little more, just a little bit more
No better time than now (Yeah, Sons and Slip-On, let's go)

Yeah, I used to think finally had it figured out
As long as I make a lot of money they can't make me settle down
Now go and tell 'em, look at me 'cause I'm the captain now
But when you walked away my world crashed down
You put perspective in my views
Because this life is like a vapor
So live your life like you ain't got another day 'cause
Tomorrow ain't a promise, girl, we need to work it out

And there ain't, there's no better time than now

Now, now (Yeah)

I want it now, now, now

Now, now

Now

Now, now

Now, now

So I'm gonna smoke a little more

Drink a little more, live a little more

Love a little more

Love a little more, just a little bit more

No better time than now
