

Crazy Over You

Sonta

It's a certain way you make me feel
I go crazy over you boy

I know I'm on your mind, after what happened last night
But I don't wanna hit your line, even though you are on mine
But you so fine, I want your time, can't hide the way I feel
So I call, (and Ima tell him through the phone)
I got some tricks up my sleeve, I want to do some freaky things
And I want you to do some freaky things to me
Boy this is round two, so sit back and let me please you
My legs up on yo' shoulders, but this time lets take it slow
Baby I wanna feel it, have my legs up on the ceiling
Make me cry, then moan, inside why you going, you got me gone
Baby this is a danger zone

It's a certain way you make me feel, when you be biting yo lip
Baby you turn me on and I can't help, but want you
I go crazy over you boy

I know I come off shy but its the feelings that's inside
You send shivers down my spine, boy I really can't describe
the things you do, to me, you make, my dreams
Come true, true, true, true, true

Tonight I got some tricks up my sleeve (I got it)
I wanna do some freaky things (come here)
Do some freaky things to me its long overdue so sit back and let me please you

Ima do you right baby I promise that it's time
Put my legs behind your head, are you ready for this ride?
We go high, then low, then fast, then slow like a roller coaster

Its a certain way you make me feelllllll
When you be biting yo lip
Baby you turn me on and I can't help
But want you, I go crazy over you boy
Crazy over you boy...

Tonight I got some tricks up my sleeve...(Come here)
Do some freaky things to me
And let me please you

Ima do you right baby I promise that its time
Put my legs behind your head, are you ready for this ride?
We go high, then low, then fast, then slow like a roller coaster
