

## Energy

Sonta

I started thinking and realized you got me fucked up  
Say you need to talk, nigga talk about what  
I know you been over there, loving on her  
Kissing that bitch and fucking on her  
Tell that bitch she can have you  
Cause I ain't never been a goofy nigga  
I ain't never been a groupie nigga  
See you think I'm acting funny but  
I'm really fucking trying not to lose it nigga  
Talking about you miss me  
Nigga save that shit  
Take it to the bank nigga, chase that shit  
You lost me, you gotta face that shit and  
Yo medicine, u finna taste that shit  
All of them bitches can't add up to me  
Not even if you multiply them by 3  
I know they hate it, my vibe is contagious  
They imitate it but can't duplicate it

Now you running back to charge your battery, your battery  
You don't love me, you just want my energy, my energy and  
You on 1%, so you here to plug me in  
You don't love me, you just want my energy, my energy

I look at you and I wanna hit you in yo shit  
Can't believe you got me feeling like this and  
The most fucked up part about it, is it's not even in me to do  
what you did  
So foolish, I was just gone be yo friend but fuck that shit  
I can never let a bitch think she got my nigga yea, you'll love  
that bitch  
And I can't lie, we had a vibe  
But now I see that you not down to ride  
Just leave me alone, I was doing fine  
Until you came back in my life with your lies  
My feelings is clear, you know I can't hide so  
That's why you think you don't gotta try but  
I got some news for you nigga, I ain't finna be a fool for you

Now you running back to charge your battery, your battery  
You don't love me, you just want my energy, my energy and  
You on 1%, so you here to plug me in  
You don't love me, you just want my energy, my energy
