

## Forever Yours

Sonta

Your love (your love) is so addictive (so addicted to your love )

Soon as you touch my body I get wet up in an instant (your love is all I need)

I need you there when I call I don't care about the distance (distance, yeah)

Yeah I need you around, boy you got the crown

Come over tonight cuz I need you to love me down

Baby won't you love me down tonight

You're the only one who can make me feel right

Drive me crazy boy I want your time

Your tender kisses send shivers down my spine

I'm forever yours

I think I need a sip of your love

Cuz all I do is daydream of you swimming in my water

The freaky things we do keep it between me and you

We're so sexually compatible we cannot lose

Baby won't you love me down tonight

You're the only one who can make me feel right

Drive me crazy boy I want your time

Your tender kisses send shivers down my spine

I'm forever yours

You make me feel so beautiful

You make me smile on the usual

I cannot picture losing you

We in this forever me and you

You make me feel so beautiful

You make me smile on the usual

I cannot picture losing you

We in this forever

Baby won't you love me down tonight

You're the only one who can make me feel right

Drive me crazy boy I want your time

Your tender kisses send shivers down my spine

I'm forever yours
