

## In Too Deep

Sonta

I'm in too deep  
My heart telling me I should stay and work it out 'cause it's g  
on' be okay  
I'm in too deep  
My mind telling me I should think about it 'cause I always seem  
to make the same mistakes  
I'm in too deep, I can't just leave  
Some things are just easier said than done  
I'm in too deep  
How did I get in too deep?  
I should've stayed in the shallow end

I swear love'll sneak up on you  
You look up, you be stuck playing house, what the fuck?  
Somebody tell me what I'm gon' do  
'Cause I'm confused, what is love?

I'm in too deep  
My heart telling me I should stay and work it out 'cause it's g  
on' be okay  
I'm in too deep  
My mind telling me I should think about it 'cause I always seem  
to make the same mistakes  
I'm in too deep, I can't just leave  
Some things are just easier said than done  
I'm in too deep  
How did I get in too deep?  
I should've stayed in the shallow end

Being loyal can be a gift and a curse  
'Cause sometimes it can make you forget your worth  
But I had to learn how to put myself first  
I'm not taking less than I deserve (No, no, no, no)  
I said being loyal can be a gift and a curse  
'Cause sometimes it can make you forget your worth  
But I had to learn how to put myself first (Got in too deep)  
I'm not taking less than I deserve (Why did I, why did I get in  
too deep?)

I'm in too deep  
My heart telling me I should stay and work it out 'cause it's g  
on' be okay  
I'm in too deep  
My mind telling me I should think about it 'cause I always seem  
to make the same mistakes  
I'm in too deep, I can't just leave  
Some things are just easier said than done  
I'm in too deep

How did I get in too deep?  
I should've stayed in the shallow end
