

Too Beautiful

Sonya Kitchell

And I laid down in fields of gold
Only to rest my head
And I walked home
On a warm summer's day
With buttercups and queen and lace
For my baby
And I ran til I could run no more
And I jumped into icy cold stream
And as the water ran across my body
I wonder is this all just a dream

Chorus

Ohhhhh, my darling (X2)
Its to beautiful to be

And I look out across the quiet lake
Echoing the sounds of night
And I watched the yellow grass
Dance to a symphony

Early in the morning light
And I walked down the street
Crowded y faces and places I've never Known
Foreign lives sketched by foreign desires
Seep through my body
To the bone

Chrous

And when the night
Comes to tame me
I won't fight
Cuz its no good to fight
When your down
And when the night
Comes to claim me
I won't fight
Cuz its no good to fight when your down

Oh my darling (x10)
Its to beautiful to be
