Oh, day or night
The light in the cracks
It spreads along the clouds
Oh, day or night
Calling me
In small waves and
Timing to meet
I color every time I think of you
Piled up on the blue sky
All day, all night
It's getting deeper
It's a sunset that captures you

Da-ra-du-du-du, this time
In my eyes
I'll keep this forever and more, oh, baby

That red highway

That leads me to you
In the orange scent
Your smile as pretty as yellow
The shadows also get longer
I want to see you quickly, yeah
A dazzling sunset that resembles you
I'll come to you before I disappear

Oh, day or night
The light becomes clearer
As if mixing together beyond the borderlines
Oh, you and me
Only excitement remains
Narrowing the distance
A little closer
When the moonlight is colored by the sunlight
I hope to be held in your arms
May this fleeting moment last forever, oh, yeah
It's beautiful

Da-ra-du-du-du, this time
In my eyes
I'll keep this forever and more, oh, baby

That red highway
That leads me to you
In the orange scent
Your smile as pretty as yellow
The shadows also get longer
I want to see you quickly, yeah
A dazzling sunset that resembles you
I'll come to you before I disappear
